# I-80 Gilman Interchange Improvements

## PROJECT DESCRIPTION | March 2016

The proposed project will reconfigure the Interstate 80 / Gilman interchange, located in northwest Berkeley near its boundary with the City of Albany.

The purpose of the project is to improve navigation and traffic operations on Gilman Street between West Frontage Road and 2nd Street through the I-80 interchange so that congestion is reduced, queues are shortened and merging and turn conflicts are minimized. In addition to improving mobility through the Gilman street corridor, the project aims to close the gap in local and regional bicycle facilities through the I-80/ Gilman Street interchange and provide access for bicycles and pedestrians traveling between the Bay Trail and Northern Berkeley.

**PROJECT STATUS** | The Project Study Report - Project Development Support (PSR-PDS) for the project was approved by Caltrans in October 2014.

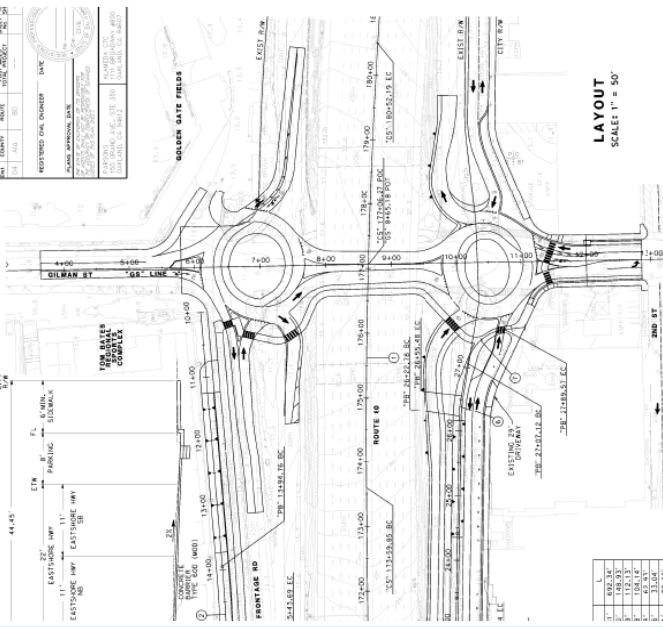

Measure BB funding has advanced project development. In May 2015, Alameda CTC released a Request for Proposals for consultant support to complete the Environmental and Design Phases of the project. The professional services contract was authorized by the Commission in July 2015 and environmental phase work activities began October 2015.
